

World Alzheimer's Month

September marks World Alzheimer's Month, and this year World Alzheimer's Day takes place on Wednesday 21st September.

Humber NHS Foundation Trust's Research team are busy raising awareness and promoting the national Join Dementia Research (JDR) service, which matches volunteers to suitable research studies.

On Saturday 12th September, they attended the Humber Bridge Memory Walk (see photo). They will also be at the 'Celebrating Older People in Hull' event at the Mercure Royal Hotel in Hull on Wednesday 28th and Thursday 29th September and attending various local Dementia Friends sessions to speak about current dementia research and help people sign up to JDR.
