BrightTALK™

CRN webinar: Thursday 22 October 11am

Are you a charity or other organisation funding clinical

research in the NHS?

The NIHR Clinical Research Network is hosting a live webinar to outline the benefits of working with the Network to deliver research within the NHS. The session will focus on the support the CRN provides for clinical research funded by charities and other non-commercial sponsors, and will look at ways we can work together to ensure research teams get the support they need.
